

7045

Workgroup Document System

Konica

A Networkable 45 ppm Printer/Copier/Scanner.

The Konica 7045 is the perfect document system for offices and workgroups looking for high-end features and high performance in a mid-range package. Stackless duplex; Stamp, Watermark and Image Overlay; and a cascading finisher design are just the beginning. Whether you put it to work as a network printer, network scanner or walk-up copier, the 7045 never slows down. Thanks to Konica's innovative engine design, the 7045 maintains its rated engine speed of 45 pages-per-minute across all three functions. The embedded IP-431 Print Controller (optional) is the latest addition to Konica's full line of print controllers and is the brains behind the 7045's stunning versatility. Versatility that makes it the perfect fit for busy mid-size offices and workgroups.

7045 Highlights

- ▶ 45 ppm Printing/Copying/Scanning
- ▶ 600 x 600 dpi Resolution
- ▶ Intuitive Touch Screen Control Panel
- ▶ Optional Network Printer & Network Scanner
- ▶ 2,600 Sheet Maximum Paper Capacity
- ▶ Stackless Duplex
- ▶ Real-Time Document Processing
- ▶ Multi-Bin Finisher/Cascading Finisher Design

7045

Workgroup Document System

Features

► Real-time Document Processing

With up to five copy reserve jobs, document production will never slow down. The 7045's real-world multifunctionality means it can do more than one thing at a time and do them all well. For times when the rush is on, the job interrupt feature provides immediate access to high-priority work.

► Touch Screen Controls

Truly user friendly, the Konica 7045 touch screen provides easy access to all advanced features, including unique print-driver applications such as Stamp and Watermark. Konica's user interface is common to all our digital products – from our 20 ppm machine to our 75 ppm machine – providing users with applications that are familiar.

► Multi-Bin Document Finishing

With the FS-109 Finisher's three output trays users can send reserved jobs to a different output tray than designated for a copy or print job already in progress. Documents are processed according to which tray receives them. Tray 1 processes documents face up or face down. Trays 2 and 3 process documents face down and have finishing capabilities. Total tray capacity is 1,500 sheets.

► Job Management List

Monitor job progress directly from the touch screen, which displays the order and status of each job. Users can even delete or reprioritize jobs after they are programmed. To save time, this feature is accessible even while the copier is warming up.

► Integrated Printing, Copying and Scanning

The 7045's digital engine delivers high-performance multifunctionality ideal for mid-volume workgroups. Connected with the IP-431 Print Controller the 7045 prints and scans at 45 pages-per-minute.

The Konica 7045 gives mid-size offices and workgroups the high-end features and versatility needed to stay on top of ever-increasing workloads. Its innovative engine delivers 45 page-per-minute, 600 dpi performance as a network printer, network scanner and walk-up copier. The 7045's embedded IP-431 Print Controller (optional) delivers advanced printer functionality, including true Adobe PostScript®3*, and 45 ppm network scanning functionality. Advanced copier features like Stamp, Watermark and Image Overlay are easily accessed from the 7045's intuitive touch screen controls.

KONICA 7045 SPECIFICATIONS

Configuration	Console
Technology	Laser electrostatic
Warm Up	90 seconds
First Copy	From platen 3.9 seconds (8.5" x 11")
Copy Speed	45cpm/8.5" x 11", 5.5" x 8.5" 36cpm/8.5" x 14" 26cpm/11" x 17"
Continuous Copy	1-999 copies
Memory	32MB standard/upgradeable to 288MB
Reduction/Enlargement	25% - 400%
Maximum Original Size	11" x 17"
Average Monthly Page Volume	50,000 pages
Maximum Monthly Page Volume	150,000 pages
